**You may bring this brochure into
the voting booth with you**

**Malachy McCourt
for Governor**

**Peace Mom
Cindy Sheehan says:**

**"I am supporting
Malachy McCourt...He is a
man of courage, integrity,
he's a dear friend of mine.
I believe the people of
NY want peace.**

**And, people really are
tired of the same party
politics as usual."**

**Green Party
Row F**

Why Vote Green Party?

The only way for the Green Party to be able to run **hundreds of peace candidates** in New York next year is for Green Party governor candidate **Malachy McCourt** to get **50,000 votes** this year.

Under NYS election law, 50,000 votes for a Governor candidate gives the Green Party an automatic ballot line. That would level the playing field for Greens, so they can get on the ballot as easily as Democrats and Republicans.

This opportunity only comes around *once every four years...* And it is *only the governor's race* that matters for regaining the ballot line.

Please, help build the Green Party. Vote for **Malachy McCourt** for **Governor on Row F**.

Why We Need You

The Democrats and Republicans both take money from corporations. Corporations are the only ones profiting from war. Corporate donations and corporate lobbyists make your voice count less and less to your elected officials. Green Party candidates do not accept corporate contributions. Since the Green Party does not take money from corporations, we cannot depend on buying our way to ballot success.

The Green Party is America's Peace Party

Author/actor Malachy McCourt is the Green Party candidate for Governor. Both Democratic candidate Eliot Spitzer and Republican candidate John Faso support the Iraq War. Both Spitzer and Faso support the death penalty. The Green Party is proud to offer New Yorkers a progressive choice on the ballot. McCourt has spoken out loudly against the death penalty. And McCourt's campaign calls for an immediate withdrawal from Iraq:

"Every dollar we send to Washington supports this war, so we must find ways to not send money to Washington. Our State Legislature must condemn this war. And we must condemn war as a way of solving problems."

Local peace activists like **Bill McNulty** are supporting Malachy McCourt for Governor. (In fact, Bill has just become a Green Party of NY State Committeeman.) Nationally, **Peace Mom Cindy Sheehan** has called for NYers who support peace to support Green Party Governor candidate Malachy McCourt.

In 2004 , the Green Party ran War

Resisters League Co-Secretary **David McReynolds** for US Senate. McReynolds has also endorsed Malachy McCourt.

Vote Green Party for Better Elections

The Green Party supports Instant Runoff Voting (IRV) where the voter ranks the candidates in order of preference, like for the MVP and Heisman Trophy. IRV always has a majority winner; eliminates spoiler fears; decreases negative campaigning; and combines the power of progressive voters.

One last thought from Peace Mom Cindy Sheehan:

"We will never have a viable third party, though, as long as we vote out of fear and not out of integrity. Instead of voting for the "lesser of two evils" we should be voting for a candidate that reflects our "beatitudes" and not the war machine's."
